## TO OUR CUSTOMERS,

The **AFRICANSNAKEBITEINSTITUTE** has gone to great lengths to secure quality products for our market. We already have the largest range of snake tongs and snake hooks available in Africa and our JM snake tongs are of the highest quality and each product is guaranteed.

Snake tongs and snake hooks are vigorously tested during our snake handling training sessions and we receive very positive feedback from our corporate clients that make use of ASI products.

Wherever we struggle to find suitable products for our clients, we develop our own and both our lightweight snake gaiters and standard snake gaiters have become best-sellers to corporates, hunters, hikers, fly fishermen and even competitive mountain bikers. We have also developed gaiters for children.

Our range is always expanding and we are the largest supplier of quality snake handling equipment on the continent.

Please check out our product list and if there are related products that you need and that are not listed, do notify us and let's see if we can assist.
